

SEO PERFECT CAR ALARM SYSTEM TECHNICAL DATA

SEO PERFECT CAR ALARM SYSTEM TECHNICAL DATA ('D' 2004)

Supply voltage	12 V +/-25%
Current consumption when armed	10 mA
Current consumption when disarmed	5 mA
Power consumption from the ignition (after switching the ignition on)	8 mA
Alarm duration	25-30 sec.
Operating temperature range	-40°C ÷ +85°C
Continuous lock load capacity	max. 15 A
Load capacity of turn indicators	2 x 5 A
Siren output load capacity	2 A
Rearming output load capacity	170 mA
Load capacity of the output supplying ground to additional sensors	170 mA
Load capacity of the output supplying +12V to additional sensors	170 mA
